### COIN LIST -- WINTER 1993

This list is coming out roughly on time as planned. We had a very nice trip to Africa and saw lots of animals (especially lions, elephants, and rhinos) in the game parks. We also bought lots of coins and many are offered in this list. We again found that many supposedly common coins and dates are difficult if not impossible to find. Searching for and finding those elusive coins is part of what makes collecting African coins such an exciting and interesting hobby. We did pick up a few new issues and they are also offered here. We would appreciate it if you could specify if you are a type collector so that we can substitute another date of the same type, if the ordered date is sold out. Generally, we do not individually pack the cheaper coins in holders. It is not worth it economically. Our next list is planned for mid 1994 and this list is valid until then. We now have a FAX: (909) 985-6418.

#### Description of grading used:

Conservative European grading, which is stricter than the grading of U.S. coins, is used. Any defects (nicks, verdigres, scratches, etc.) will be mentioned. We will not send you damaged or overgraded coins. Compare our pricing and grading with any dealer. Order with confidence. Some abbreviations are used: ty- tiny, scr- scratch, lus- lustrous, sp- spot, dt- dirt, oxid- oxidation, rn- rimnick, sm- small, verd- verdigres, ch- choice, hairl- hairlines, fing pr- finger print, so- some, cle- cleaned. Conditions of sale at end.

We are keen buyers of African material (notes and coins) and will pay realistic prices. Write first if you have anything to sell.

Thank you for taking the time to read our list.

Jan and Marlene Vandersande.

SPECIAL NOTICETo our overseas customers

Banks in the U.S. now charge a collection fee (from to \$15 to \$50) for bank drafts, money orders etc. that do not have computer coding on the bottom, eventhough the bankdraft etc. is drawn on a U.S. bank. The computer coding, an example of which is shown here:

⑆322270097⑆ 257011726 3⑈ 0437

allows automatic collection. Without the coding the bankdraft has to be sent for special collection and each bank that handles it, charges a fee.

Due to the high cost of processing these bankdrafts, money orders etc. we cannot accept them without this coding. If your bank cannot issue such a bankdraft then you can send either cash U.S. dollars via registered Air mail, or travellers checks made out to "Notes for Africa". Make sure you sign the traveller's check in BOTH places and keep a record of the number of the check.

Thank you for your assistance in this matter.

## WHOLESALE NOTES

We are again pleased to offer a new selection of some African notes in small whole sale quantities. We are offering the new Namibia notes, the new South African 10 Rand as well as some that sold out quickly on the two previous lists. Some new Unc notes have a "dimple" at the top of the metal thread (e.g. Zaire, South Africa, and Zambia). We believe we have the lowest prices around and our grading is strict so order with confidence. The Pick numbers that will appear in the seventh edition are being used.
